5.1.2 CAPACITY BUILDING AND SKILLS ENHANCEMENT

As much as learning is an ongoing process, capacity building and skills enhancement program follows the same trend. Our College have conducted programs on Soft Skills, Language Skills and Communication Skills, Life Skills and Awareness of Trends in Technology.

1. SOFT SKILL

Our students have attained knowledge and occupational skills which helps to succeed in the workspace through the program in soft skill conducted by the Yah consultant and permit solutions. The seminar covered vital areas such as communications, team work, and leadership, problem solving and time management.

2. LANGUAGE AND COMMUNICATION SKILLS

Students are ready to face the competitive jobs with self-confidence through our language and communication skills training program conducted by Yah consultant and Permit solution. The session was an interacted, workshops and group activities was conducted to ensure active participations and practical learning of the students.

3. LIFE SKILLS

Our Life skill training program helped to handle issues and problems encountered in daily life conducted by TUV Rheinland NIFE Academy for fire and safety and Barkclay's Life skill training program. The program helped the students to develop self-confidence and successfully deal with significant life changes and challenges. Yoga programme empowered students and faculties who had an experience attitudinal change and transformation to enhance holistic development of mind, body and soul. Tree plantation program fostered awareness about trees are the foremost source for producing the oxygen in environment.

4. ICT/AWARENESS COMPUTING

The awareness program helped the students to enhance their employability and inter-personnel skills conducted by Our Shoulder-Google Automation, You Can Fly Drone Academy- Animation and Drone Technology and SPSS Workshop. They transform the way that students think and learn and give them greater control over how, where and when they learn.

This awareness of trends and training program had automated data manipulations, reporting and document generation in Google sheets and Google documents.
